### ▲ Kerman, the humble splendor

In one of the hottest provinces of Iran, such beauty and splendor waiting to be seen that might be getting acquainted with it will take you to Kerman in the middle of summer. If we say that near the hottest spot on Earth with an average temperature of 70 degrees Celsius in the middle of the central desert of Iran, is located one of the most magnificent Persian gardens, with green trees and flowing rivers, dating back to more than a hundred years ago, do you think we are talking about the land of wonders? Then you'd better travel to Kerman and see

it yourself. Where The Citadel of Bam or the largest brick citadel in the world exists. As a recommendation, in a hot afternoon of Kerman, ask where to drink Faloodeh and try a memorable taste. Bear in mind to take a while in Kerman traditional Bazaars before leaving, because you can find the high quality nuts, Persian carpets, and delicious Date cookies called kolompe with the best price. You know how dietary supplements powders work? The organic traditional and much more delicious version of it exists in Kerman named Ghovatoo.
